About us

Atef Issa & Partner Factory Co. (APF) was established in 1998 in the Kingdom of Saudi Arabia - Riyadh, to be one of the pioneers in the market of manufacturing decorative lighting poles including all types, shapes, and accessories, in addition to the works of decorative fixtures, outdoor lighting, and metal works.

We are distinguished by being experts in everything related to lighting poles, metal works, and sustainability services. We always strive to provide everything new in our fields to suit the beauty of urban developments, innovative decorations with modern and classic designs, and smart systems with exclusive products.

2030 Vision

APF manages manufacturing, trading and engineering services to establish a clear footprint in the industry market in line with the aspirations and vision of the Kingdom of Saudi Arabia 2030.

VISION OF KING SALMAN

My first goal is for our country to become a leading and successful global model of excellence, on all fronts, and I will work with you to achieve this.

APF'S COMPANY PROFILE

VISION OF MOHAMED BIN SALMAN

It is my pleasure to present Saudi Arabia's vision for the future. It is an ambitious but achievable plan that expresses our long-term goals and expectations and reflects the strengths and capabilities of our country.

A nighttime photograph of a city street. In the foreground, a tall, modern light pole stands prominently, featuring two curved arms that hold two illuminated Saudi Arabian flags. The pole is lit from within, casting a warm glow. In the background, other similar light poles line the street, and a few cars are visible, their headlights and taillights adding to the night scene. The sky is dark, and the overall atmosphere is one of modern urban infrastructure.

Our vision

To become a leading driver of innovation and entrepreneurship in manufacturing, trade, Engineering of metal, lighting and sustainability.

Our mission

To provide our customers with sustainable, reliable, and cost-effective opportunities for manufacturing and trading services in the fields of lighting poles and metal works.

Motivation

To become a leading driver of innovation and entrepreneurship in manufacturing, trade, Engineering of metal, lighting and sustainability.

Goals.

MORE CREATIVITY AND INNOVATION

in the metal work industry, decorative lighting poles and their applications, which will give us more progress, expansion and spread.

PROVIDING THE BEST SERVICES

and products to our customers in the best possible way and providing high quality and competitive prices that exceed expectations.

BUILDING LONG-TERM RELATIONSHIPS

with our clients by providing exceptional services through business pursuit and business innovation.

Our Values

DEVELOPING
and maintaining national
competencies our
investments.

INNOVATIVE
design
And creativity.

WORKING
on achievable goals

TAKING CARE
to provide the best products
with high quality and
reliability.

WE ARE KEEN
on continuous development
and improvement in order
to create a brightfuture.

Our Services

MANUFACTURE

of aluminum and steel decorative lighting poles in all shapes and accessories

ELECTROSTATIC

powder coating paint for metal

MANUFACTURING

of lighting supplies and fixtures

DESIGN

supply and installation of solar energy systems

MANUFACTURE

Fabrication of all metal works

ENERGY EFFICIENCY

and Sustainability Works for Buildings

OUR STANDARDS

- + Flexible production, high quality standards and wide design option combined with highly skilled engineers allow APF to offer standard and highly customized products that meet the individual needs of our customers in compliance with all global and local standards.

COMMITMENT TO QUALITY

- + APF is committed to providing products and services that meet customer needs and expectations, protect the environment and ensure employee health and workplace safety.

Aluminum Lighting Poles

We design and manufacture lighting poles that complement modern architectural trends, ensuring a cohesive aesthetic and meeting all functional needs.

Classic Lighting Poles

Every place has its own impression, and it is necessary to install the important columns for this place, so we also spread them by manufacturing classic lighting poles to reflect the historical culture of the place and its nobility Also.

Classic Lighting Poles

Every place has its own impression, and it is necessary to install the important columns for this place, so we also spread them by manufacturing classic lighting poles to reflect the historical culture of the place and its nobility Also.

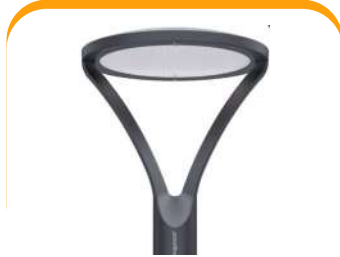

Wooden Lighting Poles

Wooden columns give a touch and impression inspired by nature, and this is reflected on the visitors, which refers to luxury and sophistication. Therefore, we manufacture wooden columns to inspire a spirit of luxury and sophistication among customers.

Bollard

As an outdoor accent light, you'll want to choose bollards that fit the existing style of your space and will complement other light fixtures in your landscape. Path lights or post lights lining your walkways or driveway are complemented by bollard lights and in the backyard, you'll find that these bollard light fixtures work well with in-ground and well lights. When choosing any type of outdoor light.

is the design of street lighting such that people can safely continue their travels on the road. Street lighting schemes never brings the same appearance of daylight, but provide sufficient light for people to see important objects required for traversing the road. Street lighting plays an important role to illuminate our dark in Night The basic features of a street lighting luminaires are:

Roadway, Highways, Garden ,
Stadiums , etc .
IP Rating IP65-IP68

Guarantee 2- 5 years
IK08 -IK10

Street lighting design

Solar Street Lighting

Solar street lighting is the sustainable solution for enhanced, safer and more inviting community spaces. It is an intuitive, intelligent lighting solution powered by the energy of the sun with a wireless control system that allows you to configure it from anywhere in the world. Our advanced, sustainable smart street light technology enables you to create ambient community spaces with increased activity and engagement, bringing public places to life.

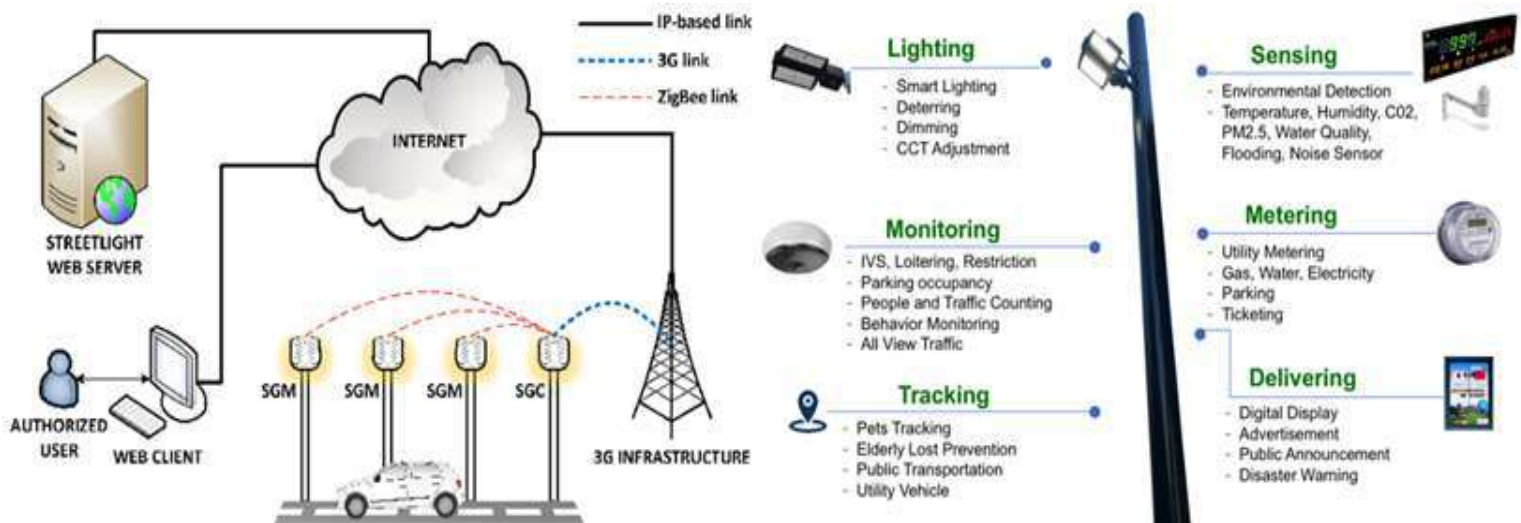

Solar Street Lighting

APF is an EPC solar contractor for Solar PV Street lighting. We design, manufacture and install cutting edge solar PV systems that are best suited to your energy needed and maximize efficiency to give you the best value of your investment.

- Street light intelligence system is made up by software, concentrator, terminal controller.
- The concentrator controller is installed in the distribution cabinet, the terminal controller is installed in the lighting terminal. It proceeds with communication via;
- GPRS/CDMA/WCDMA wireless network or cable network & monitor center and proceeds with communication via ZIGBEE/PLC.
- Concentrator controller can control each terminal controller via receiving, executing, forwarding PC management software , which can control each lamp's switching on /off or dimming ,then save electric energy.
- It can also monitor the lamps' electric energy to achieve failure lamps function.
- Concentrator controller can built-in DO to achieve street light loop control, it can connect with other equipment to collect local illumination, temperature and other information, feedback to PC management software and achieve to monitor the current information.

Smart Lighting Systems

- The automatic Smart Solar street lighting system has become smart and responsive over time, but when it is combined with the emerging internet of things (IoT, Lora, Zigbee) it is able to support greater functionality because of additional sensors and flexibility.
- The IoT is a fast-moving field. It is a network of identifiable things/physical objects which are interconnected in order to achieve control and exchange of information via an information carrier (Lora, Zigbee, GPRS, 4G).
- IoT solar street light allows a wide variety of devices to build seamless communication and interaction remotely.
- In comparison to conventional lights that were expensive to operate and often consume about half of the city's total energy, an IoT-connected Automatic smart lighting system is a smarter, greener, and safer solution.

Smart Lighting Systems

Concrete Foundation For Lighting Poles

Installing exterior lighting is a project that is often overlooked. Light poles are crucial for your safety. Whether used to brighten up residential areas, highways, or even an outdoor sporting event; all would be dangerous without properly installed light poles. So Precast concrete light pole bases simplify the installation equation for outdoor site lighting. Skip the messy concrete trucks in tight quarters, and opt for bases delivered ready to go! Also, We have all dimensions of concrete foundation for lighting poles and all Shapes of Anchor Bolts "L", "J" and "I" shape.

Fuse Box

An electrical junction box is an enclosure housing electrical connection. Junction boxes protect the electrical connections from the weather, Avoid Luminaire Unit damage as well as protecting people from accidental electric shocks.

So, we have two options: -

- 1-MCB Fuse Box with Breakers
- 2-Plastic fuse Box

Steel Fences

Steel fences are important, it's adding both safety and beauty, so it was necessary for us to work on manufacturing it.
